

- All evaluations are anonymous and will be compiled into one report for the clinical site and for the clinical instructors. If evaluations are shared, any comments that may identify a student will be removed. All evaluation compilations will not be shared until the entire class has graduated from the program.

Clinical Site

- Students will evaluate each clinical site that they rotated to prior to graduation using the electronic database system.
- All evaluations will be anonymous to preserve the privacy of the student
- Clinical site evaluations will be maintained by the program
- Any consistent or egregious concerns with the evaluations will be addressed with the clinical coordinator. The Program Director/Fieldwork Coordinator will facilitate this discussion and assist the site with an improvement plan.

Evaluation of Distance Education Courses

- Distance education courses will be evaluated using the same tools as traditional campus-based courses.
- If evaluation is below average for courses in the College of Health Professions, the Program Administrator will meet with the course instructor to resolve problems.
- Course grades will be monitored at the conclusion of each test to ensure students are retaining the information. The distance course exam grades will be reviewed for consistency with residential exam grades.

SECTION 6: GRADUATION REQUIREMENTS

In addition to the graduation requirements of the College of Health Professions <https://education.musc.edu/students/enrollment/bulletin/colleges-and-degrees/healthprofessions/graduation-requirements>, in order to be eligible for graduation from the Genetic Counseling Program, the student must have accomplished the following requirements:

1. Demonstration of academic achievement:
 - a. Successful completion of all didactic course requirements with a minimum GPA of 3.0
 - b. Good academic standing with the MUSC University
2. Demonstration of clinical achievement:
 - a. Successful completion of clinical rotations showing ascertainment of Practice Based Competencies across a variety of settings.
 - b. A minimum of 50 participatory cases are required.
3. Successful completion of a thesis project:
 - a. Preparation of a final manuscript
 - b. Dissemination of scholarly work through journal submission, poster submission or oral presentation
 - c. Approval by thesis committee and GCP leadership.
4. Completion of program-approved Supplemental Activities (one per semester).
5. Demonstration of professional conduct in accordance with the NSGC Code of Ethics.
