

**Stefanie Corbett, DHA**  
**Consulting Firm Owner/ Department Chair, Assistant Professor, Corbett Healthcare Solutions, LLC/ Limestone College**

Dr. Stefanie Corbett is a healthcare educator, consultant, and author. She has a special affinity for seniors, and has devoted her professional career to advocating for and advancing the quality of healthcare for the older adult population. Dr. Corbett held various senior leadership roles in public and private organizations before founding a healthcare consulting firm in 2014, Corbett Healthcare Solutions, to assist post-acute care organizations with regulatory compliance and operations management. As Department Chair and Assistant Professor, she leads the Health Care Administration and Human Resources Department at Limestone College, where she wrote the curriculum and designed the courses for the Master of Business Administration - Health Care Administration Concentration. She previously served as the Deputy Director of Health Regulation for the South Carolina Department of Health and Environmental Control, where she was responsible for enforcing regulatory compliance at 6,000+ licensed facilities/agencies across the state, overseeing the certification and licensing teams, monitoring major policy issues at the state/federal levels, leading the promulgation of state regulations, and providing guidance to various healthcare stakeholders. Dr. Corbett obtained a DHA from the Medical University of South Carolina, an MHA from University of South Carolina-Columbia, and a BA from University of North Carolina-Chapel Hill. She is the author of Long-Term Care Quality Measures: A Guide to Data Analysis, Performance Improvement, and Public Reporting as well as The Theft Prevention Guide for Senior, and the co-author of The Long-Term Care Compliance Toolkit. Dr. Corbett is also an active member of several professional associations and community service organizations.

### How did the DHA degree help enhance your career path?

The DHA degree allowed me to be a competitive applicant for senior management positions in both operations and academia. I learned how to synthesize and analyze data, and use it for decision-making, which opened doors for additional research-based job opportunities. The DHA also offered great professional networks with healthcare leaders, other students in my cohort, and faculty with field and teaching experience. I made life-long relationships that I have maintained since graduation.

MUSC DHA Graduate:  
2015

Doctoral Project:  
Does It Pay to Make the Grade?  
The Association Between  
Quality and Financial  
Performance in Nursing Homes

Doctoral Project Chair:  
Walter Jones, Ph.D.
